Feedback Grid

[Get the latest version of this deck.](#)

INTRODUCTION

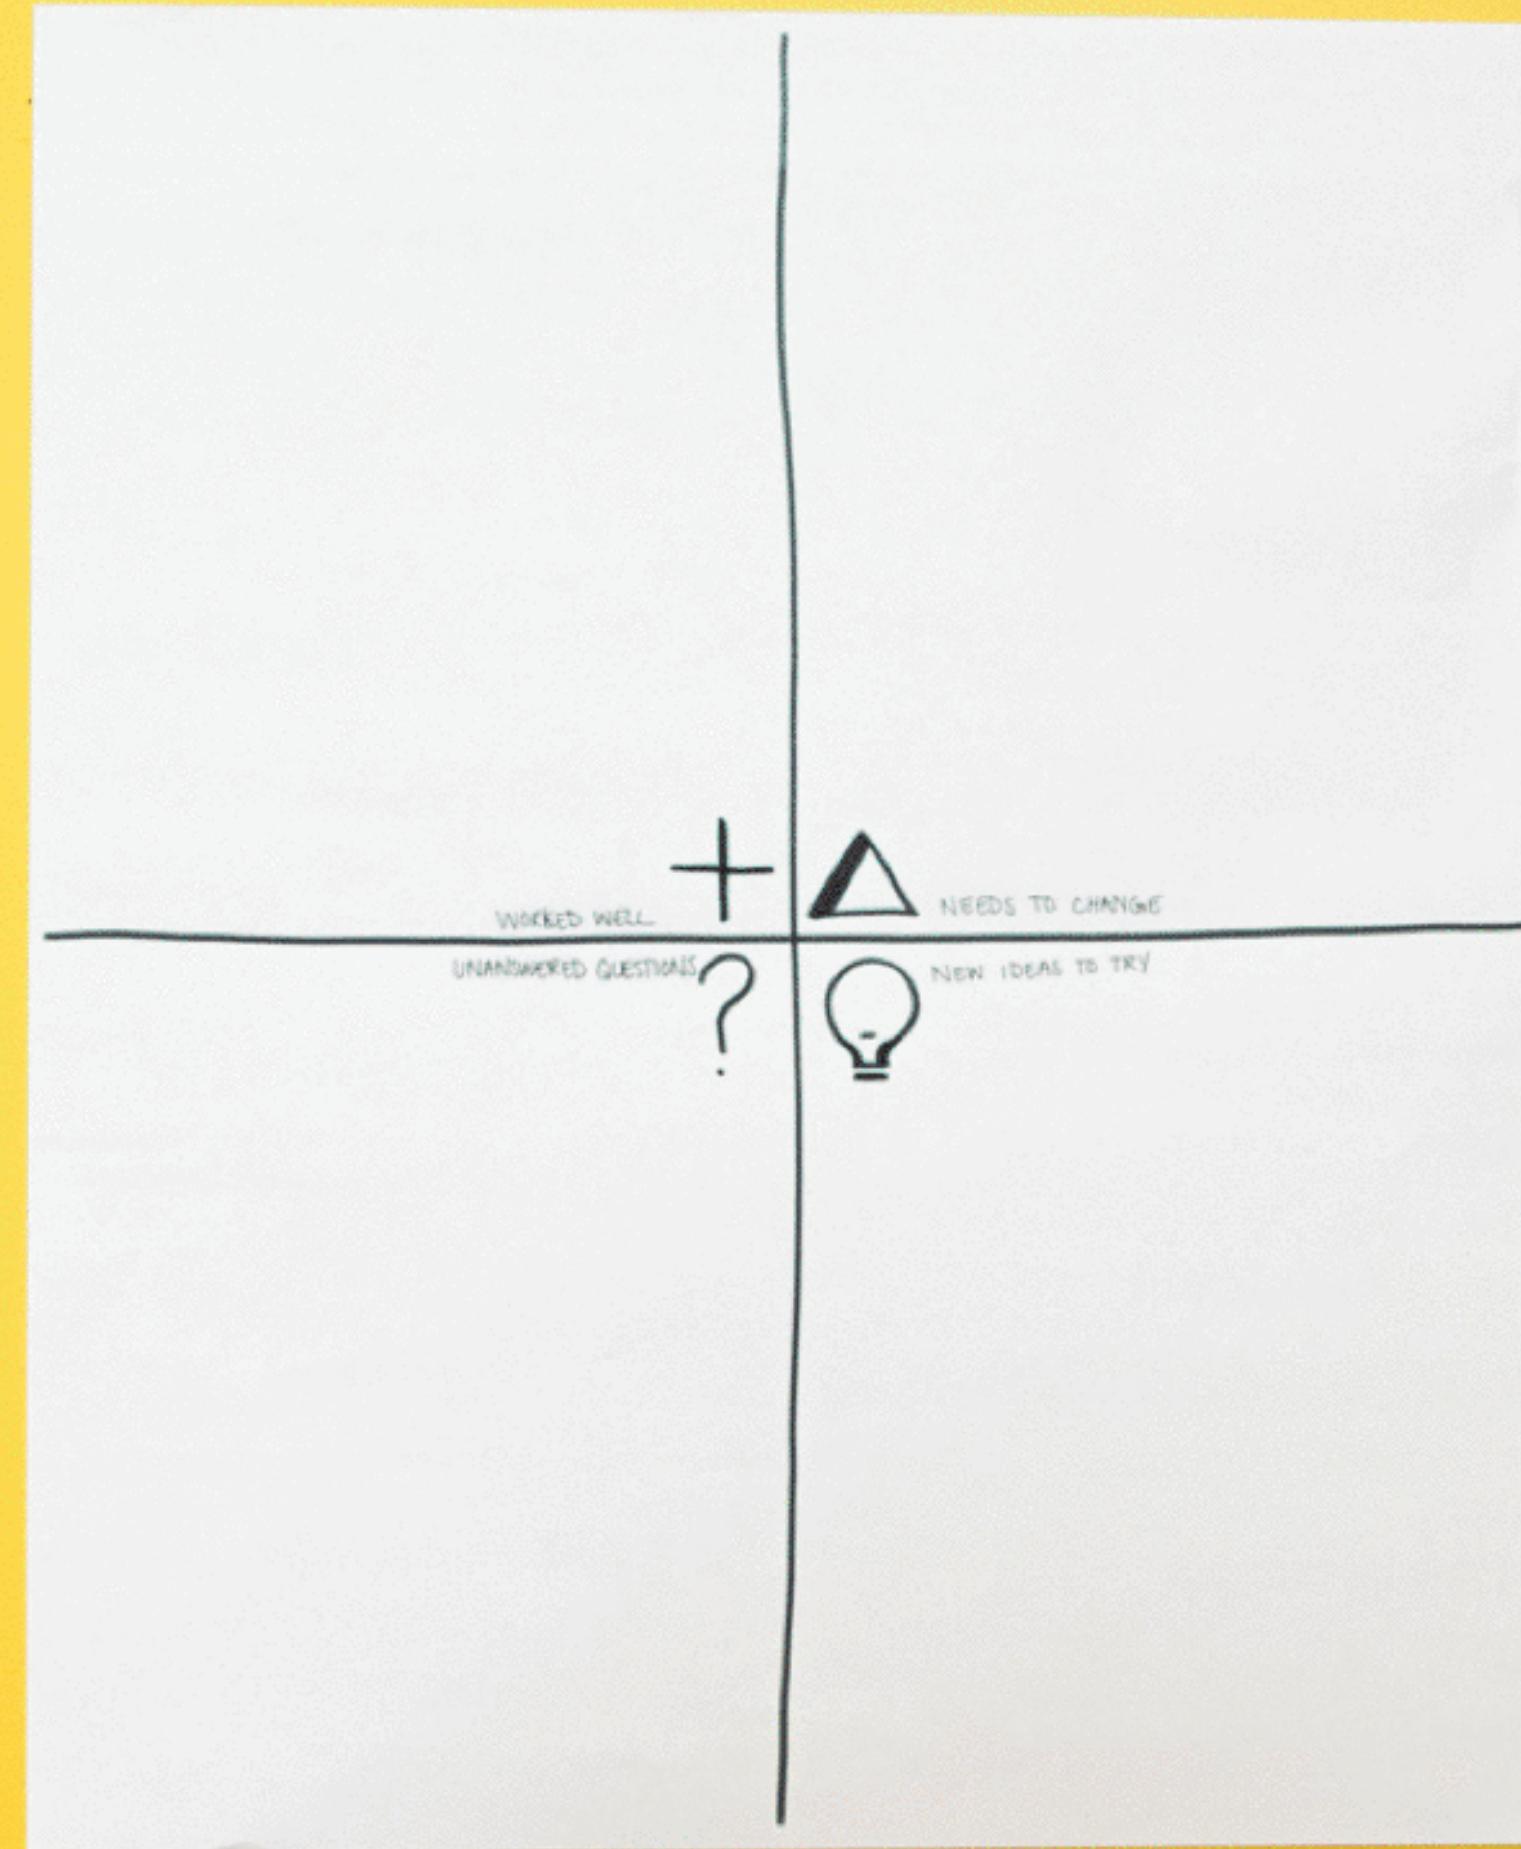

Why do you use this activity?

Gather, organize, and make sense of feedback from users, team members, or stakeholders.

INTRODUCTION

When should you use this activity?

Use this anytime you anticipate receiving feedback. You can create them during—or directly after—a user observation, a Playback, or an engagement.

We suggest **30 minutes** for this activity. How much time you spend is up to you!

- **Write before you talk.** Write or sketch lots of your ideas on sticky notes *before* talking about them. During discussions, capture the main points on sticky notes and post to the wall.
- **There are no bad ideas.** Start big. Diverge to get everyone's ideas out there. Come back together to discuss, cluster, and seek patterns. Then, converge to determine the strongest ideas.
- **Stay focused on your users.** Tell stories about users to keep them at the center of your attention.
- **Everyone participates.** Everyone has a marker and a pad of sticky notes.
- **Stay engaged.** Avoid side conversations. Use a “parking lot” to capture issues that are off-topic.
- **Start on time, stay on time.** To meet our goals, we need to watch the clock and stick to the plan.
- **Yes, and...** Instead of dismissing the ideas that your teammates suggest, push yourself to build on them.

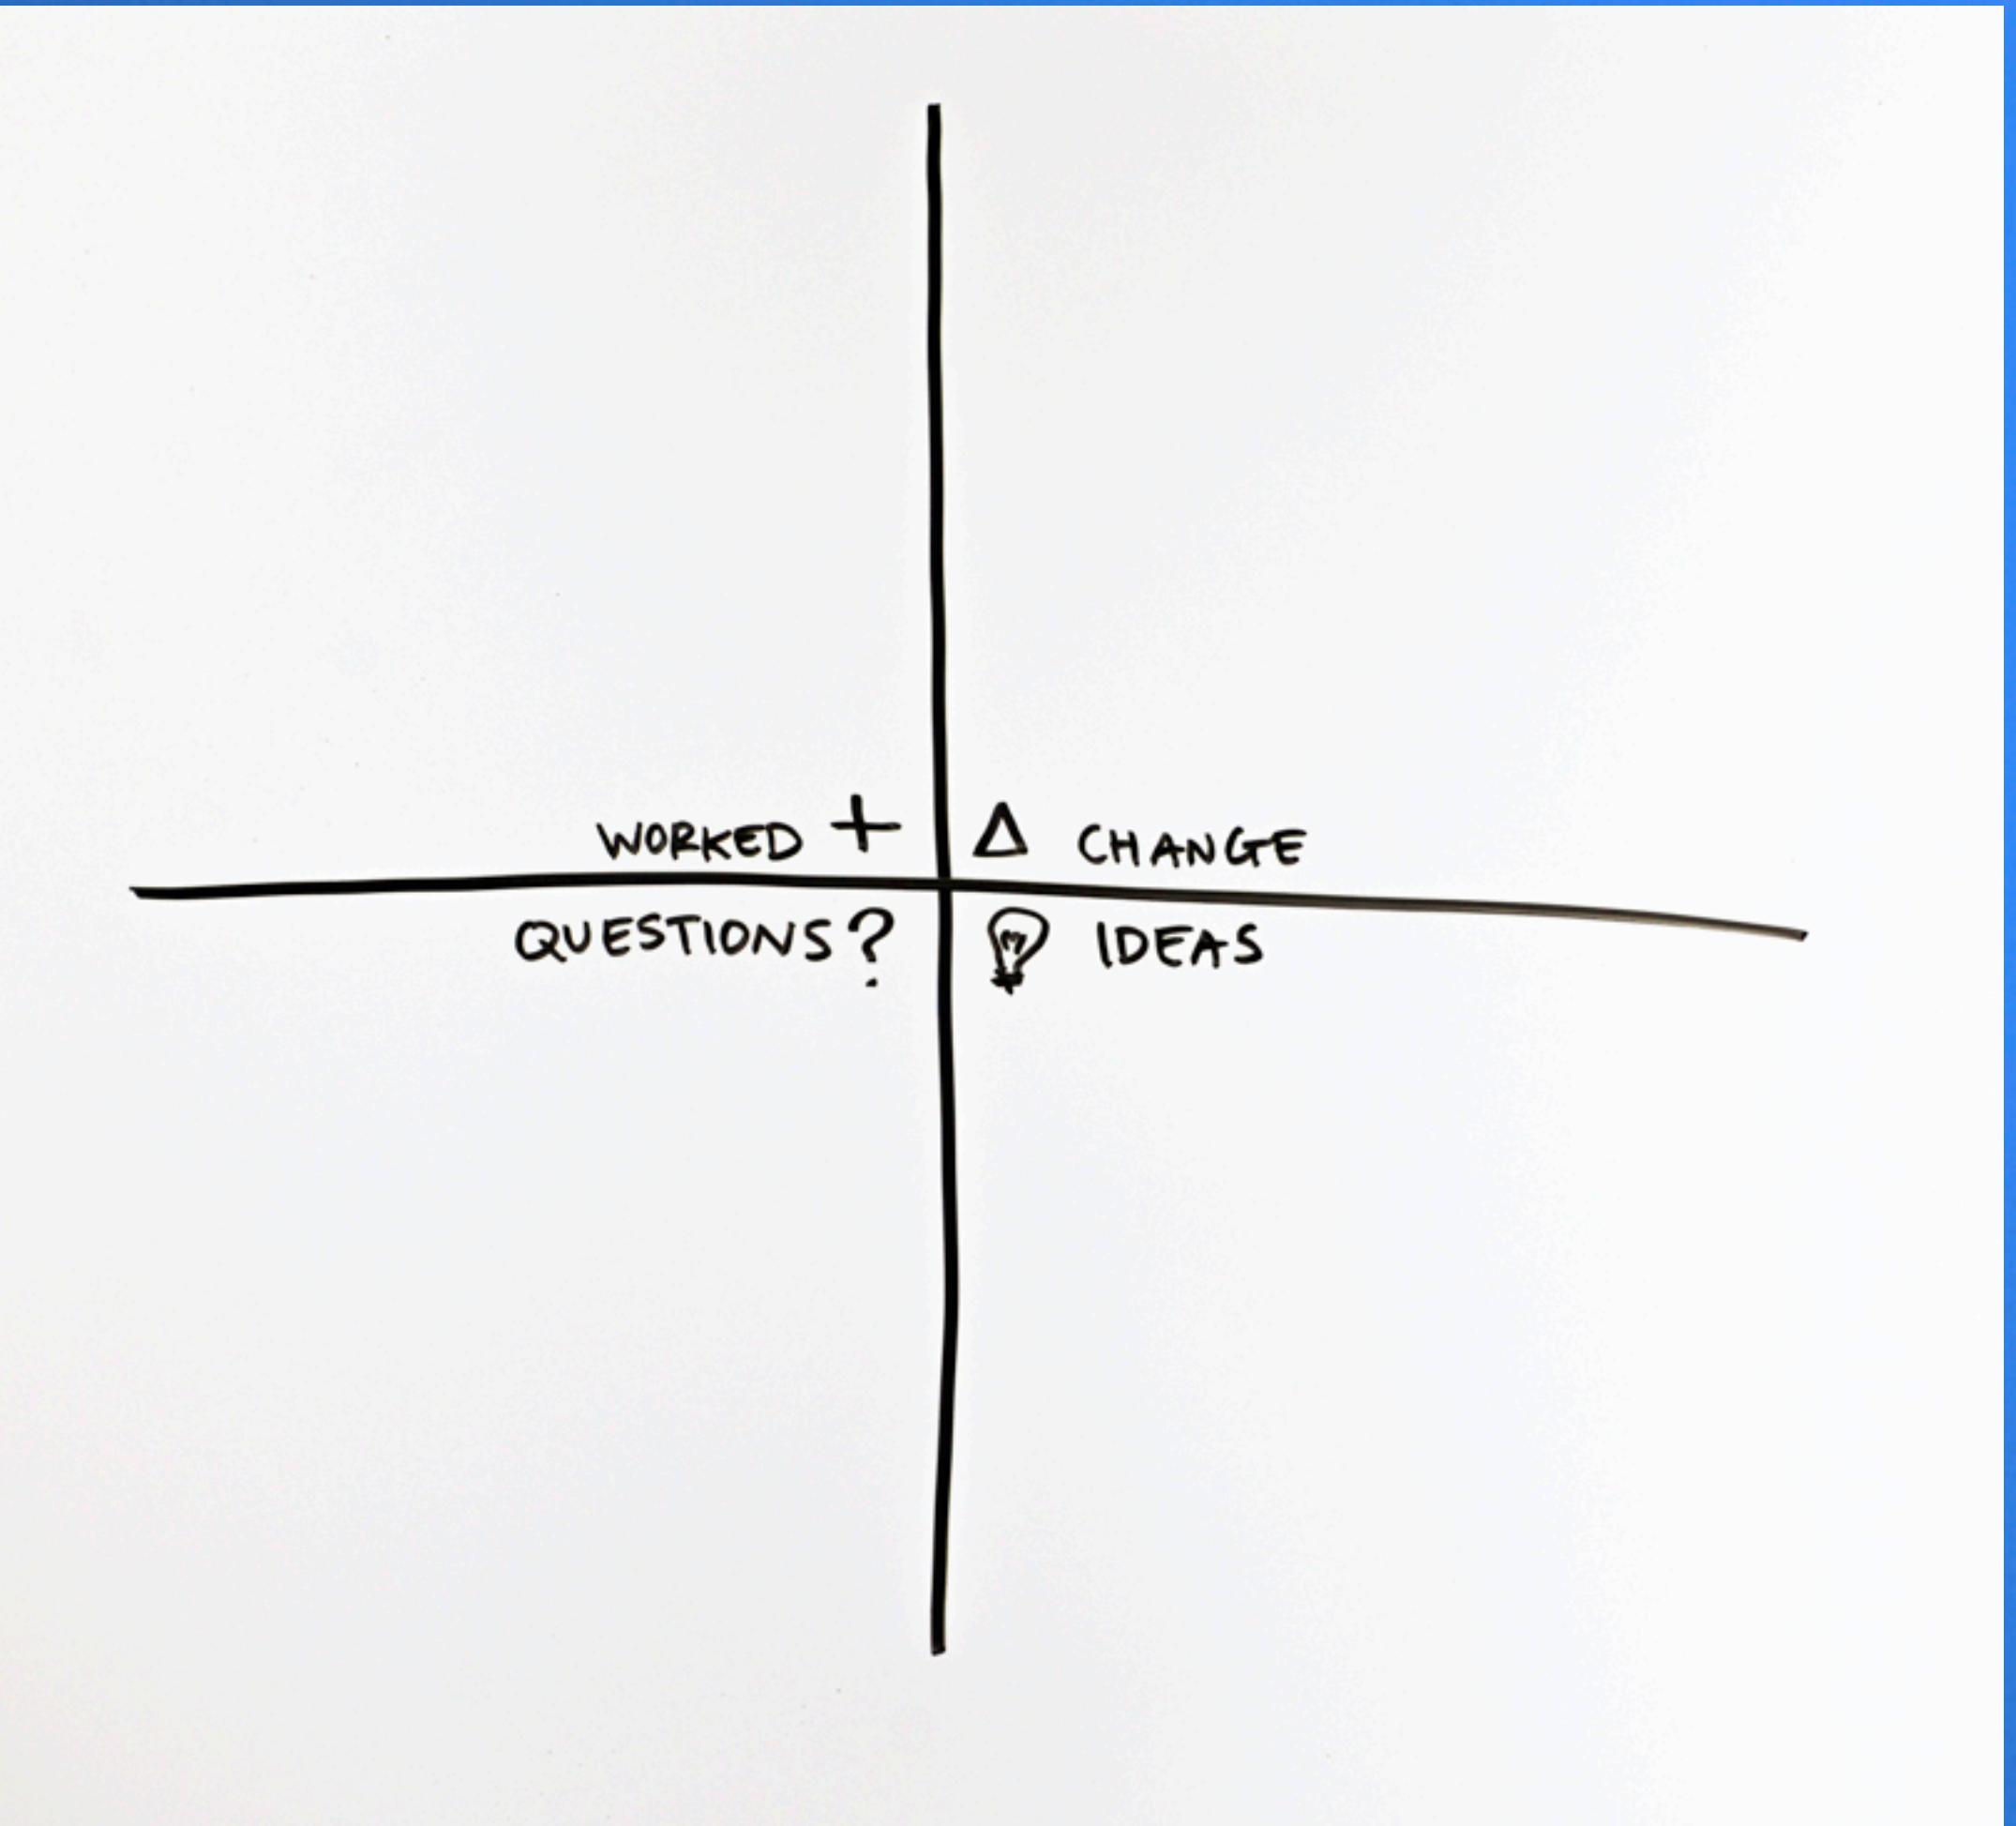

Ready, set, go!

Feedback Grid

30 min

SETTING UP

Draw a two-by-two grid and label its four quadrants: *Works well*, *Needs to change*, *Questions*, and *New ideas*.

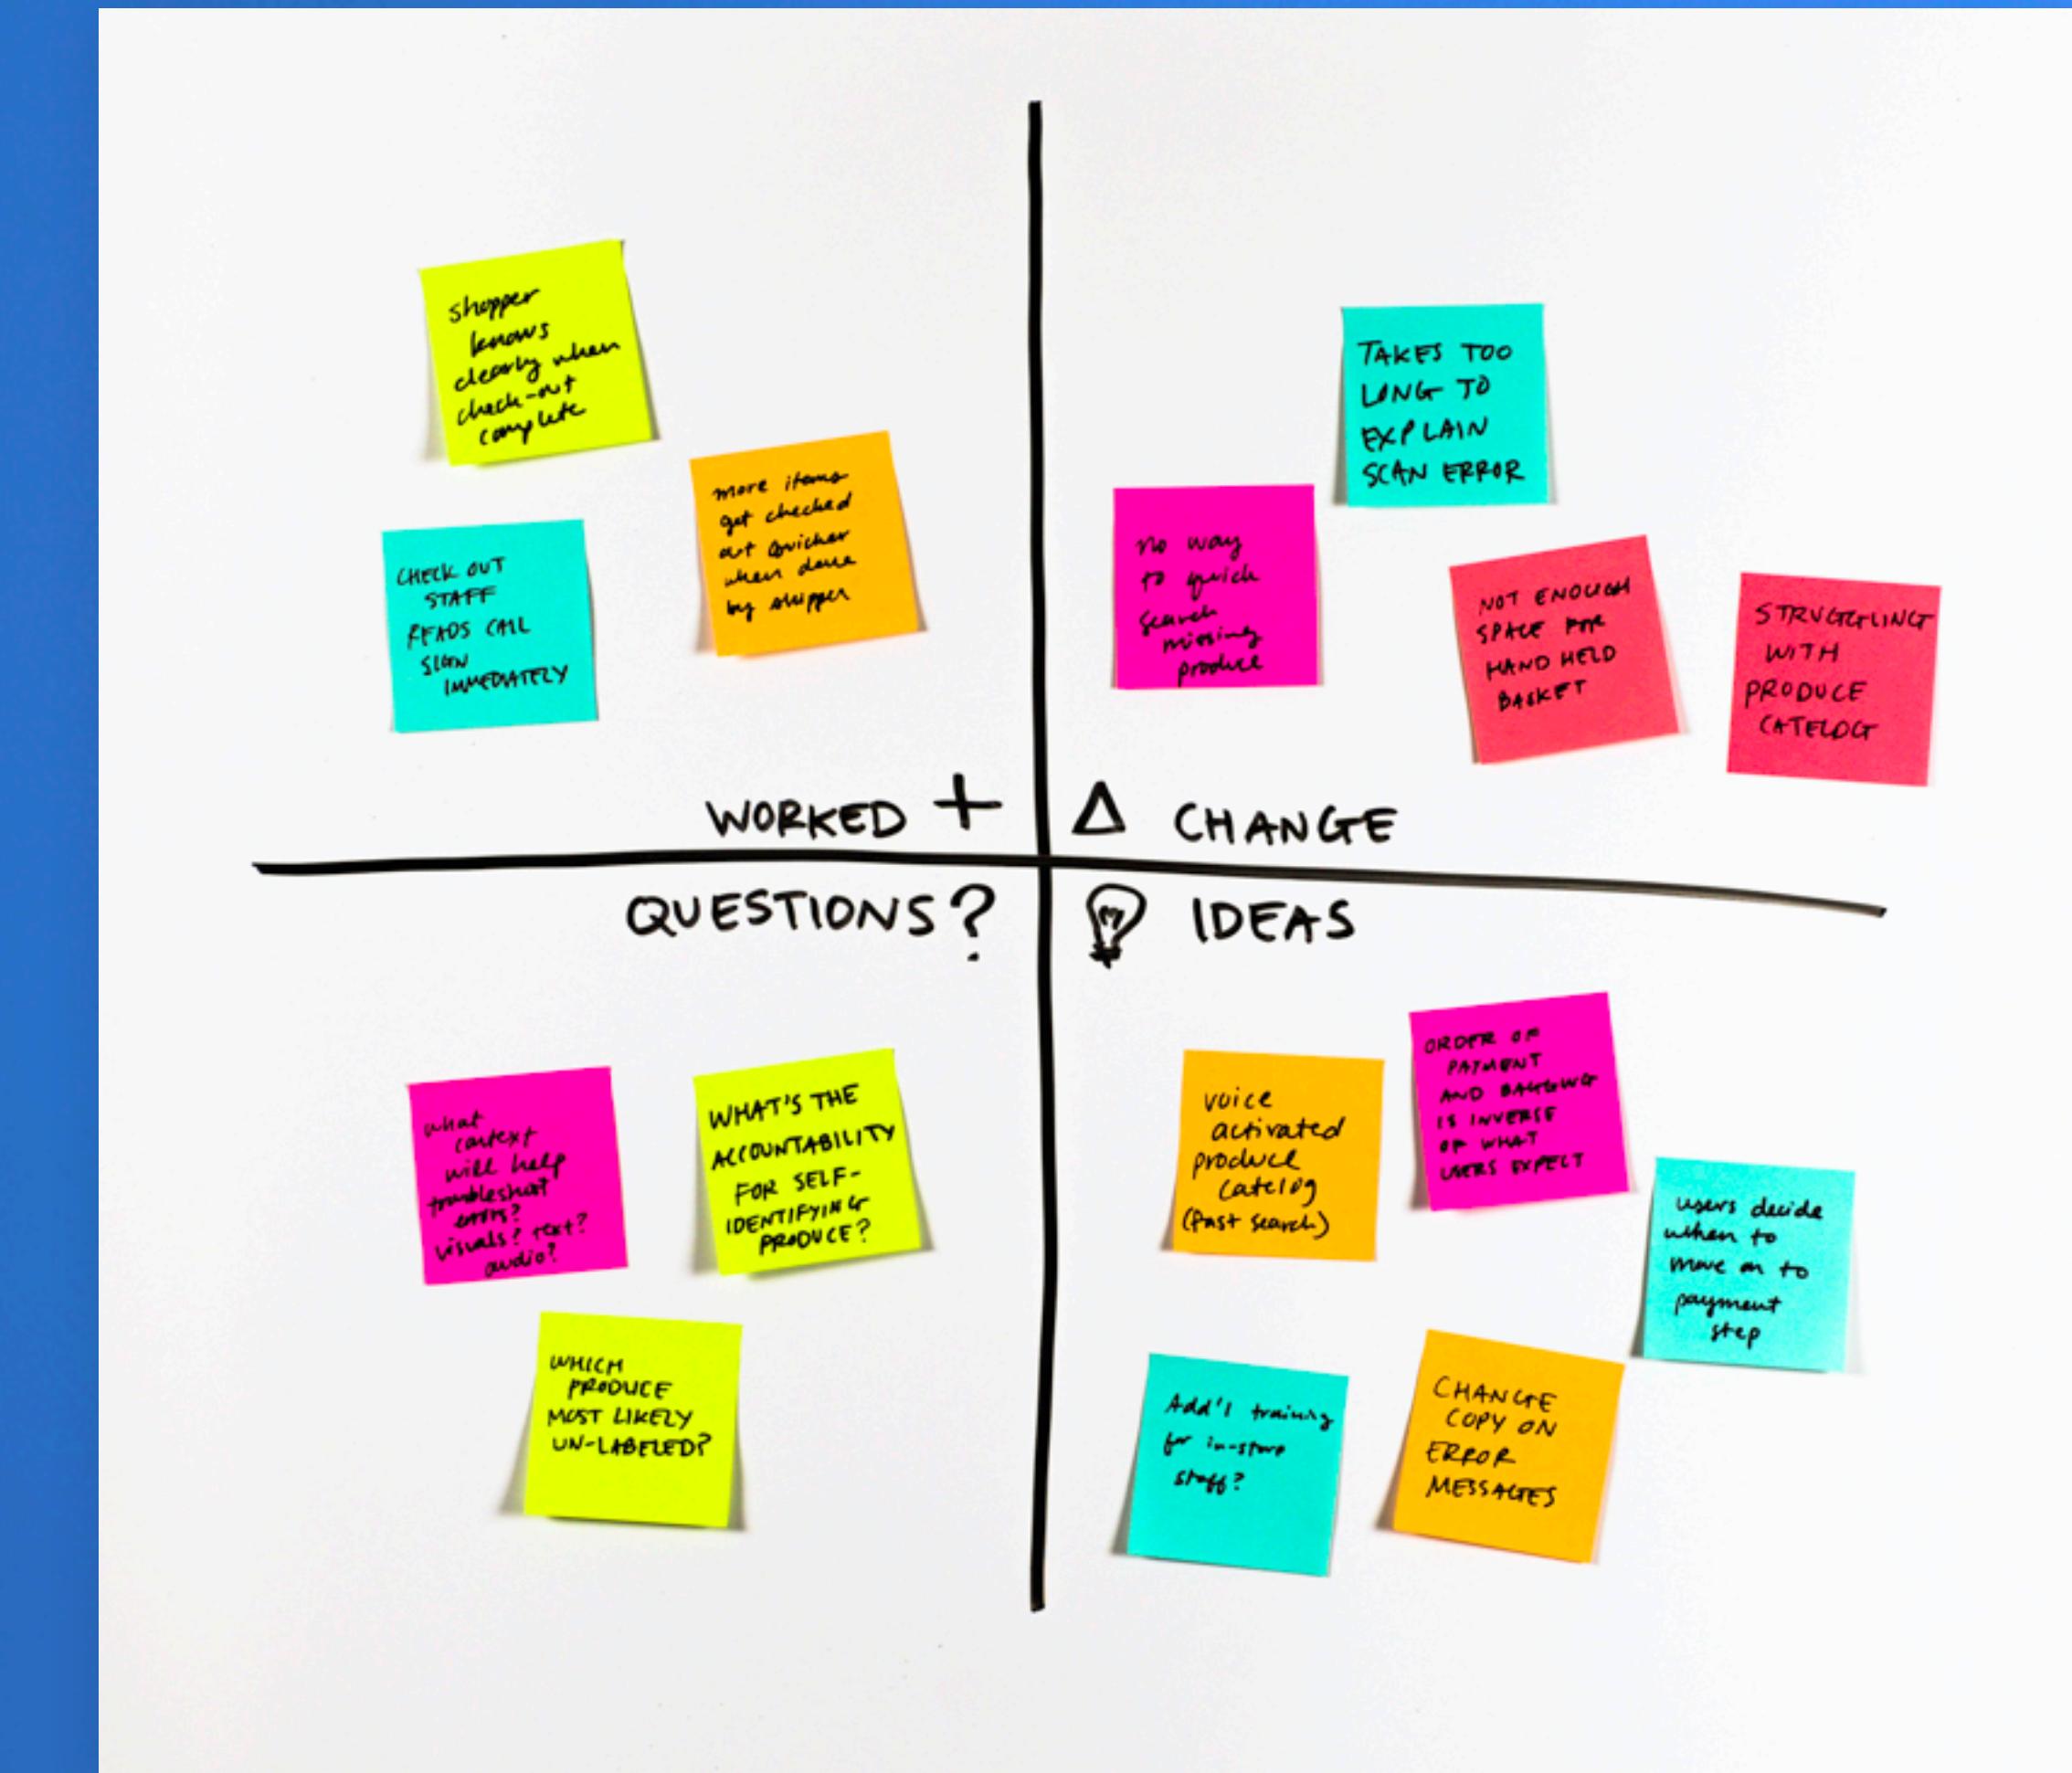

Feedback Grid

30 min

CAPTURE FEEDBACK

Use the Feedback Grid to capture feedback on sticky notes in real-time, or convert notes taken previously.

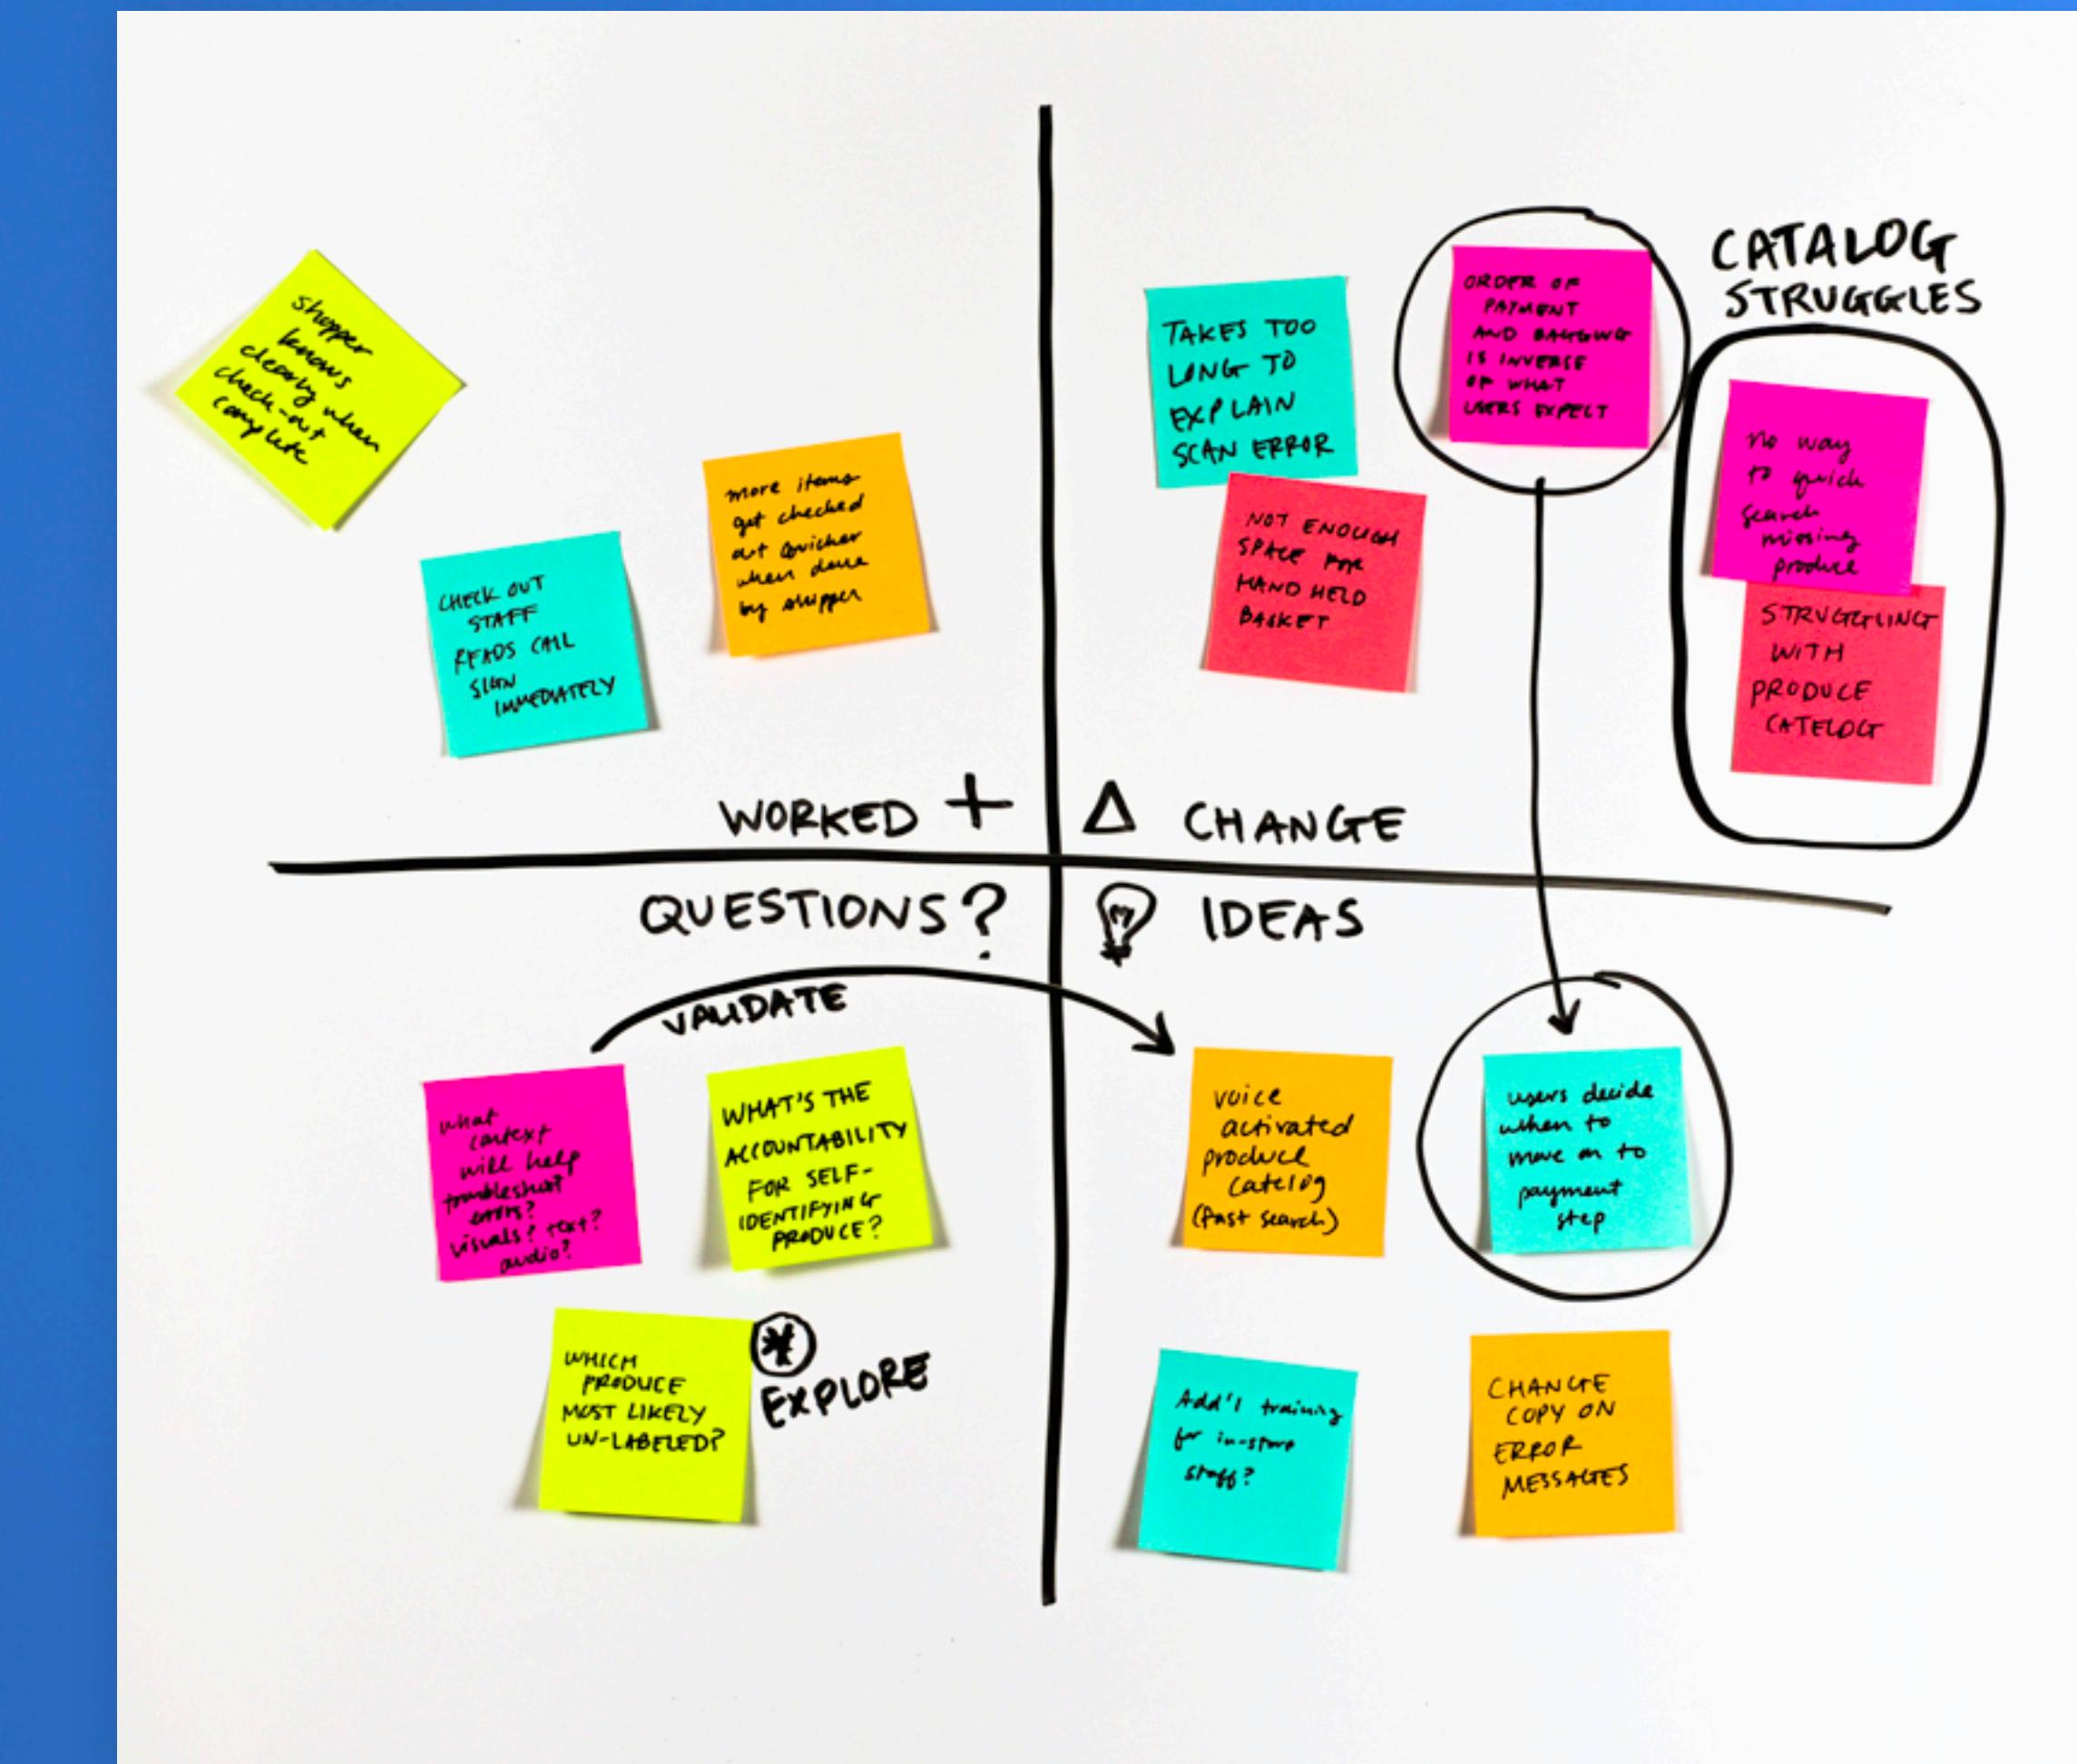

Feedback Grid

30 min

CLUSTER

Cluster similar ideas and discuss. Search for patterns and themes.

Take action directly after the activity.
